Conclusion of the project

CONCLUSION

- The study is made on the topic financial performance using ratio analysis with five years data in Emami Limited.
- The current and liquid ratio indicates the short term financial position of Emami Ltd. whereas debt equity and proprietary ratios shows the long term financial position.
- Similarly, activity ratios and profitability ratios are helpful in evaluating the efficiency of performance in Emami Ltd.
- The financial performance of the company for the five years is analyzed and it is proved that the company is financially sound.

FINANCIAL ACCOUNTING – SCOPE AND ANALYSIS

Scope of the project

SCOPE

- To maintain systematic record
- To ascertain the financial position of business
- To ascertain the operational profit or loss
- To facilitate rational decision making
- Knowledge of debtors and creditors
- Knowledge of purchase and sales
- Basis of income tax and sales tax
- Information regarding performance and position
- Comparison
- Proof in the court
- Helpful in raising loans
- Helpful in insolvency
